25. (Previously Presented) The method according to claim 18 wherein in said implementing, the versioning functionality is further implemented in resource files available to the classes and libraries.

26. (Previously Presented) The method according to claim 18 wherein the versioning functionality implemented in classes and libraries comprises:

copying master files stored in a first directory structure and thereby creating a set of working files; and
storing the set of working files in a second directory structure.

27. (Previously Presented) The method according to claim 26 wherein the versioning functionality implemented in classes and libraries further comprises:

copying the working files in the second directory structure and thereby creating a set of updated files; and
replacing the master files in the first directory structure with the set of updated files.

28. (Previously Presented) The method according to claim 27 wherein the versioning functionality implemented in classes and libraries further comprises:

receiving a request for replacing the master files with a set of updated files, and checking for a previous replacement of the master files with another set of updated files;

calling said replacing if there is no previous replacement of the master files since a previous copying of the master files; and

calling said copying master files and said storing if there is a previous replacement of the master files since a previous copying of the master files.
